[2] For himself, the boy Este 「アAssuta」 is an orphan who grew up in the care of a church in The Hague[2] after his mother abandons him on the church doorstep. [3] After turning 15, Este receives a five-a-post clover spell book with an anti-magic devil inside. He joins the Black Bull team of the Magic Knights's Kingdom of Clubs[6] and becomes the team's third magic knight and temporarily a royal knight. [8] Este look is a young man with a particularly muscular physique. He has messy green eyes, ash blond hair with bangs in front of his forehead and one strand sticking out upwards from the center of his head. He keeps his hair together with a black headband, which has the black bull's character in gold and has a red star with four pointed ones with three stitches on his back. Este's shared outfit consists of a simple white tunic with a V-shaped collar underneath a dark blue jacket, whose services extend only to his elbows. He sports a pair of matching shorts that has stitch marks on his left side. His trousers also extend just below his knees. His shoes are made of two different fabrics, the pieces covering his ankles, the soles the same color as his jacket and pants. The parts covering his toes are white, a vertical seam mark going off the bridge to his toes. After receiving his spell wall, Este wears a pocket tied to a brown leather belt. In addition, as a member of the black stamp, he wears his team's distinctive robe, which is black and short with a gold trout and covers the upper half of his torso. It also has a hood and a gold-colored button located on the right to hold it together, while the left side displays the inclement of the group. After six months of training in the heart kingdom, Este became more muscular. In addition, he wears a tight black shirt and covers his shoulders, upper arms and part of his chest. It's open in the middle and has a gold clover on the right. Above that, he wears a modified version of his class's signature robe draped over his left shoulder and attached by a red cable that wraps around his neck. His headband has three red stars, with four pointed on the front right and black bull color on the left. He also wears a pair of high-waisted black trousers tucked into knee-high boots and a large, brown, two-paired belt that protects his spellbook pocket. After making a deal with Live, Este's right arm was permanently valized. His arm is black with red blood marks, while his fingers are red with compressed black And black nails. [10] After forging an equal contract with Live, a dark colored mark appears around his left wrist. The mark is two thin lines, pierced with diabolical letters between the lines. In his black Este form, his right arm covered in black anti-magic, a black wing sprouting from his right shoulder, a black horn sprouting from the right side of his head, his upper right dog's serpent's son elongated, and his right eye turning red as the ishons turn handsome. As he draws more anti-magic, more of his body is covered, more rays form on his head, his lower right dog's breast exaggerates,[14] his right hand and leg become nails, a smaller wing sprouts from his left shoulder and a tail grows from his back. Black Clover Concept Art Movements and Personality Video Games Este's explosive nature personality is usually cheerful and hyperactive. [16] He tends to shout to express his thoughts and characters, much to the annoyance of some of those around him, and often despite other people's opinions. One of the first examples of this is when he passed on his goal of becoming a magic emperor during the entrance exam to the Magic Knights, telling other people who had been fortifying him to be quiet. Este's simple but outgoing personality is often played to comic effect in more serious situations. However, his strong tenacity interests Emmy Sukhiro enough to recruit him into his ranks, and his determination also makes him hold on to an invincible determination. Este's determination never to give up, added with his steely mettle during grueling or difficult battles, is a trait that becomes a base for others to acknowledge, such as a swing defender. However, Este found it difficult to accept his lack of charm, using his shepherd approach as a front to hide his insecurities. After his arms were broken and cursed by Vetto, Este almost became depressed before talking and forcing himself to keep pushing on. Due to his upbringing in the deserted area, Este often receives cruel opinions and insults from almost everyone he meets. To counteract this, Este seems to have developed a slightly sarcastic nature as he tries to defend himself. [20] The tenure with which he was exposed to such derogatory remarks is such that he now has some immunity for them, presented when he brushes them easily without getting more angry. However, Este can still get angry when others deeply insult his friends; He won't hesitate to confront them as he tries to protect his friends. Este accepts Noel as his friend. Este also has a very strong sense of justice, which is displayed during his fight against Thelth Gris, as he believes everyone deserves to be protected. [24] It is also not limited only to his friends but only to his friends, but only to his friends. Also, as he noted when he asks his teammates to take the unconscious Mars along with them while the dungeon collapses. He argues that their mission is only to investigate a dungeon as they are not ordered to kill any enemies. Therefore, Este seems to see the bright side of everyone and never takes insult too seriously, as you can see when he's still besified with both Juno and Noel Silva, even after they've both looked at him openly. [26] Even when Fana tries to kill him and his allies with all her might, he tries to reason with her as a means of understanding and dissuading her from rage, taking into account nonviolent methods of conflict resolution. He later continues to do so with the reincarnational fields, although he has been unsuccessful among repeated attempts. However, Este also believes that those who have done wrong should work to actively compensate for their injustices. He always considers his enemies responsible for those actions, regardless of whether he forgave them or not. He's asking that Ndig spend time in prison before promising to be his friend. He later demands that the weak Drew apologize and help all the people who hurt them. In another example, he puts Rades into a surrender grip during their next meeting, almost breaking his hand to the last one successfully convincing him that he will use his powers to help people in the capital rather than revenge. His open, friendly and non-judgmental approach, given to him and invincible tenacity, earned him the respect of almost everyone he meets, even nobles like Klaus and Pogoleon vermilion. It also earned him the affection of many girls, although his love for Sister Lily, combined with his somewhat dense personality, made him largely oblivious to this fact. This love for Lily and forgetfulness also make him a bit chivalrous and not perverse as he completely refused to try to peek at the girls while bathing in the hot spring. While a very likeable and honest man, who can beat people with his tenacity, Este can seem pretty stupid to those around him. Este isn't exactly stupid but growing up in an orphanage in the middle of nowhere has left him ignorant of many things that others consider a common square and his steady nature makes him look like a stereotypical muscle head with little to no brain. His innocence constantly leads him to emanate things with very little tact or handling the situation at hand, and his blind trust in people in the kingdom despite evidence to the contrary has made him very easy to fool, depending on the situation. His faithful nature and truth were exploited by the courts and he almost spoke his quit without thinking about the consequences while he was at trial. He is also very ignorant about many things in the kingdom and its functions which the Magic Knights need to know with most of his classmates is that he doesn't know many simple things like how corrupt the system is By the truly nobles it almost cost him and Marie their lives. Magic Tying Battle vs. Magic: Este uses this unique energy to undo magic. Although he does not have the ability to use magic, Este's mastery of his anti-magic energy, as well as the uniqueness of this power itself, has earned him the rank of mysterious stage magician. [29] Swordsman Capabilities Specialist: Este initially has a rugged style due to having an unconventional sword after receiving only basic Training in Fanzell Kruger. [32] Over time he develops greater skill through combat experience, more swords and a sense of k-sense,[34] as well as learning from his multiple battles to the side and against other magical swordsmanship. [35] No magic power: Este has no mana and therefore is unable to use magic. [36] This allows Este to activate an anti-magic without suffering the weak effects because it has no magic to drain. It also makes it undetectable for mana sensors.[38] and immune to the life-draining material of the underworld. [39] Enhanced intensity: Este has a high level of physical strength, capable of doing 1,000 hand-held push-ups,[40] to swing heavy swords with his bare hands,[41] and punch holes in rock walls without damaging himself. Este can wield his swords so forcefully that his opponents break a stone when they crash. [43] [44] The Witch Queen further increases the strength of his arm through blood magic. [45] Improved speed: Este is able to move quickly above average, making William vangeens think he used magic to help himself. [46] Improved durability: Este has high durability, as seen when able to continue to stand, despite receiving numerous attacks from Heath. He's even able to get out of Licht's attempted attack unscathed into a naval side. [48] Enhanced instinct: Este possesses an increased level of instinct, as proved when he can unconsciously move his body in the best way to protect himself. [49] Key: A principle that originates in Yum's homeland, which allows the Este to use the sixth sense and perception and respond to attacks and invisible people. [50] Sharp intellect: Despite its hyperactive and curvatic nature, Este has shown that he is intelligent and thoughtful in his own right. He understands many situations he finds himself in and can be tactical when necessary such as cutting curses with his swords and thinking about different tactics in combat. He is presented as a quick learner, as he quickly learned to use Ki from Marine's mid-combat manual,[51] as well as tapping into the sleeper forces of the breast slayer sword by simply observing its original owner fighting. [52] Devil's Possessed: As a five-book clover spell book, Este is linked to a heart, with anti-magic, giving it access to this energy. The more power he draws on, the more diabolical as his appearance becomes. [53] [54] Este agrees to a deal with Live: his right arm in exchange for more than his power. It In power, he allows him to rule out gravitational singularity[55] and hang additional weapons in the anti-magic; However, it is limited to 50 seconds of use. After passing the devil's binding ceremony, Este contracts with Leib to share power as their beings. [58] Este Black overcome with Rage PhysicalStrength MagicAmount MagicControl MagicSensing Smart Willpower 5 0 0 0 5 Grimoire Equipment: Este runs a five-story clover spell book, which he gets during his battle with Revchi. The witchcraft house is tattered and filthy, a black five-prodded slingshot in the center of its front cover. [59] This clover symbol is not seen in large part due to the dirt covering it, making most (including Este) assume that the magic book has extraordinary charm, but is otherwise ordinary. His witchcraft house was once a four-sided clover that belonged to Licht, before being vandalized by the devil Zagard and settled by Liv. [60] [61] Anti-Magic Swords: Este is able to summon swords infused with anti-magic from his spell book. He uses these ruins for various offenses that can undo magic. The swords can cut through magic, but are reduced to dilation weapons when used to strike anything else. Sword Breast Slayer: Este's first sword can be enlarged by extending anti magic from the edges of the blade, while the flat side of the sword can be used to deflect spells. [62] After six months of training in the heart kingdom, Este gained the ability to remotely control the anti-magic inside the sword, allowing him to summon the sword back to himself by holding his hand open and calling his name. [64] also riding it in the air. [65] Demon-dwelling sword: Este's second sword can release projected cuts of anti-magic, allowing it to cut through spells from a distance. He can also borrow the magic from the people around him, allowing him to release cuts with the properties of other magic properties. [66] Apart from Licht, only Este can wield this sword because he has no mana, since other magicians will not be able to use magic while in contact with the sword, and their mana reserves will be detached. Yummy's Katana: During their battle with Dante Zogartis, Yum sokairo lends Asta his katana. Este satan's arm covers the sword with an anti-magic, allowing it to deal with heavy damage to Dante and knock him unconscious. The sword then enters and is stored in its spell-tyring.
